Find what works. Repeat.

FRAMEWORK

The 6 Content Types

Each type serves a different role. Together they build reach, trust, and conversions.

#	TYPE	GOAL	EXAMPLES + RULE
01	Reaction / B-Roll <i>Stop the scroll. Start conversations.</i>	REACH	— React to bad advice with a green screen overlay — Text hook over B-roll footage (walking, desk, daily life) — Meme or ragebait format with trending audio Example: POV Example
02	Educational <i>Teach one thing. Get saved.</i>	SAVES	— Common mistake → correct approach — Step-by-step tutorial under 60 seconds — Quick tip with a save-worthy angle Example: Funny Educational Example
03	Storytelling <i>Build trust through real experience.</i>	CONNECTION	— A lesson from a real failure or win — Behind the scenes of your process — If I started from scratch, here's what I'd do Example: Day in the Life Example
04	Authority <i>Show proof. Generate coaching leads.</i>	TRUST	— Client result or before/after breakdown — Your own stats: X views, X followers, X brands — Here's what I did and exactly how it worked Example: Investing Authority Example

05	Experimental <i>Test new formats before committing.</i>	DISCOVERY	— A format you have never tried before — Swap in once every two weeks — Test as a trial reel to protect your feed Example: Study Niche Experiment Example
06	Double Down <i>Multiply what's already working.</i>	SCALE	— Same hook structure, different topic — Same format, different angle — Apply the winning hook style to that day content type, do not disrupt the schedule Example: My Internship Filter Videos

B-ROLL DEFINED

B-roll is background footage — working, walking, editing, studying, desk setups, workouts, coffee shops, or daily life clips.

SYSTEM

Weekly Schedule + Pre-Post Checklist

Post every day. One content type per day. Review and adjust every Sunday.

DAY	CONTENT TYPE	FOCUS
MON	Reaction / B-Roll	React to other creators, text hook + b-roll content
TUE	Educational	Tutorial or quick tip + lead magnet CTA
WED	Storytelling / Personal	Personal story with a lesson attached
THU	Reaction / B-Roll	Text hook + b-roll — hot takes, memes, quotes
FRI	Educational	Common mistake + correct approach
SAT	Storytelling / Personal	Behind the scenes or journey update
SUN	Authority	Your proof. End with Follow CTA or Value CTA

Double Down Rule

Every Sunday: review analytics → find your highest-performing post → identify the hook structure → apply that same hook style to the matching content type in the next available slot. Keep the daily format unchanged.

Experimental Rule

Replace one scheduled post every two weeks with an experimental format. If it performs above your average, move it to Double Down immediately.

CHECKLIST

Run through this before publishing every video.

HOOK

- ☐ Text hook reads as a standalone sentence with no context needed
- ☐ Delivers one emotion: curiosity, frustration, shock, or humor
- ☐ First 1.7 seconds are visually interesting — no dead air

CONTENT

- ☐ Dead space cut — no gaps, pauses, or silence between lines
- ☐ Captions added (1–2 words at a time, TikTok style)
- ☐ Video length fits the format (reaction: 30–45s, tutorial: 45–60s)

CTA & FUNNEL

- ☐ One CTA only — comment keyword OR follow, never both
- ☐ ManyChat active only when a lead magnet CTA is used
- ☐ Correct keyword matches the automation trigger

PUBLISHING

- ☐ Caption has keyword-rich first line (Instagram SEO)
- ☐ Posted 6–9pm EST on weekdays or 11am–2pm EST on weekends
- ☐ 3–5 relevant hashtags maximum

AUTHORITY

Proven Hook Templates

Use these as starting points. Adapt the specifics to your niche and results.

HOOK TEMPLATE	WHY IT WORKS
<i>"I grew a page from 0 to [X] followers in [Y] days — here's the only thing that actually changed."</i>	Specific outcome + timeframe + intrigue loop. The viewer has to watch to find out what changed.
<i>"Most creators make this mistake in the first 3 seconds and don't even know it."</i>	Addresses a pain point without revealing the answer. Force the watch.
<i>"Your content isn't bad. Your hook is. Here's how to fix it in under 60 seconds."</i>	Reframes the problem, removes blame, offers a fast solution. High save rate.

NEXT STEP

Free Creator Coaching

Most creators don't need more information. They need feedback.

You now have the framework. The next step is applying it to your specific page, niche, and audience. That's where coaching comes in.

Who it's for

Creators are already posting but not seeing consistent growth. You should have at least a few videos published and a clear niche.

What happens

We review your page together. I identify what's working, what's costing you reach, and give you a specific action plan based on this framework.

What you leave with

A clear posting plan, hook feedback, and a priority list of what to change first. Everything is specific to your page — no generic advice.
